

## Paypath:

The payment of an employee's wages directly into their bank account. You can make payments directly to your employee's bank accounts from your computer, without the restriction of normal bank opening hours.

### Advantages of paypath:

It's safe as the money is transferred electronically.

It is fast.

Employees do not need to go to the bank to lodge the wages so it is convenient for them.

It is environmentally friendly as there is less paper

### Disadvantage of paypath:

Sometimes there is banking fees on electronic payments.
